

TROJAN'S 'BLUE FINISHER' PLASTIC WATERSWING

WITH TROJAN'S PATENTED 'PLAYGUARD' DESIGN

Our Patented Exclusive "Play Guard", only from TROJAN, will reduce water waste during the act of drinking.

The "Play Guard" is the key. The "Play Guard" forces pigs to come at the nipple Head-On, eliminating nipple side biting and the resulting waste of water that goes directly into your pit.

NEW IMPROVED DESIGN:

- Made of molded one-piece non-corrosive plastic which is self cleaning, no internal areas for sludge deposits
- Stainless Steel grommet won't wear out
- Threads molded right in for consistency and better sealing

Threads molded right in for consistency, better sealing, and easier maintenance

REQUIRES MOUNTING KIT:

(Not Included)
Part # 16601

- 6' Chain
- 2 S Hooks
- 1 Screw hook
- 2 Model 2000 Wrench Curve Nipples
