LINEAR / SECTOR

From pregnancy detection to ovarian, cardiac, abdominal and tendinous diagnosis, the AGROSCAN Linear is dedicated to all veterinarian applications.

Thanks to its wide range of probes, the AGROSCAN Linear is adapted to all animal species in all working conditions.

Technical specifications

- Weight : 1,850 kg
- Dimensions : 14 x 23 x 10,5 cm
9,03" x 5,49" x 3,53"
- Working autonomy : 4 hours
- Screen size : 5,5"
- 256 tones of grey
- Adjustable luminosity
- Gain control
- 4 depths of exploration
- Focus : 3 different focal zones
- Image freezing
- Measurements : distance, surface, circumference and automatic back fat
- Text function
- B B/B B/M Mode
- Video output

Available probes

► **ALR 500 Probe**
Electronic linear rectal probe of 5 MHz

► **ALR 575 Probe**
Electronic linear rectal probe of 5/7,5 MHz

► **ALA 100 Probe**
Electronic linear abdominal probe of 10 MHz

► **ALA 350 Probe**
Electronic abdominal probe of 3,5 MHz

► **ALS 355 Probe**
Abdominal sector probe of 3,5/5 MHz
